

Milan Chromatin Network MiChroNetwork Meeting

June 25, 2013

Università degli Studi di Milano–Bicocca

Meeting Program

14:30 – Welcome Coffee and Registration

15:00 – Invited Lecture, **Annalisa Pastore** (National Institute for Medical Research The Ridgeway London, UK)
"The role of Structural biology in understanding molecular machines: the example of iron-sulfur cluster biogenesis"

15:45 – New Technologies, **Stephen Hague** (Bio-Rad Laboratories)
"The third generation of PCR. Overview and Applications"

16:00 – Refreshment Break

16:30 – **Renato Ostuni** (European Institute of Oncology - IEO)
"Latent enhancers activated by stimulation in differentiated cells"

16:50 – **Lavinia Casati** (University of Milan, Department of Pharmacological and Biomolecular Sciences)
"Androgen receptor activation by polychlorinated biphenyls: epigenetic effects mediated by the histone demethylase Jarid1b"

17:10 – **Beatrice Bodega** (Istituto Nazionale di Genetica Molecolare - INGM)
"Aberrant epigenetic regulation by Dystrophin-nNOS-HDAC2 pathway impairs LINE-1 dynamics in Duchenne Muscular Dystrophy"

17:30 – **Kamal Kishore** (Center for Genomic Science of IIT@SEMM, Istituto Italiano di Tecnologia - IIT)
"methylPipe: an R package for the integrative analysis of DNA methylation data"

17:50 – Network Coordination Meeting

18:00 – Social time with Pizza & Wine.

Tuesday, June 25, 2013, 14:30 – 18:00

Università degli Studi di Milano–Bicocca

Bldg. U2, Room: U2-07, Floor -1. Piazza della Scienza 2, 20126 Milano

online registration: www.michronetwork.com/meeting-2013-june-25/

contact: info@michronetwork.com

meeting organiser: Silvia Barabino (UNIMIB)

network coordinators: Marco Bianchi (San Raffaele Univ.), Roberto Mantovani (UNIMI)
