EPIGEN-MiChroNetwork Chromatin Seminar

“RNA-Chromatin round trip: the emerging connections between DNA and RNA metabolism”

June 3, 2014

Hosts: Giuseppe Biamonti and Fabrizio d'Adda di Fagagna, IGM-CNR

Venue: Residenza Biomedica Collegio Universitario S. Caterina da Siena
Via Giulotto 12, Pavia

Program:

- 14:00 Registration
- 14:30 Opening comments by the hosts
- 14:35 **Keynote Lecture: Gil Ast** – Tel Aviv University, Israel
The road from chromatin organization and DNA methylation to alternative splicing
- 15:20 **Elisa Latorre** - University of Milan
HuR and MALAT1: a new ribonucleic complex regulating cancer stemness in human breast tumor
- 15:50 Coffee Break
- 16:30 **Monica Ievolella** - San Raffaele Telethon Institute for Gene Therapy, Milan
Investigating the Role of KRAB Proteins in Shaping the Adaptive Immune System
- 17:00 **Keynote speaker: Annick Harel-Bellan** – CNRS, France
When slicing meets splicing: nuclear interference and alternative splicing
- 17:45 Closing words & Aperitif

Registration is available on site during the Chromatin Seminar

Participation is free of charge.
