EPIGEN-MiChroNetwork Chromatin Seminar

“Changing Landscapes: Histone Turnover in Health and Disease”

September 22, 2015

Hosts: Marco Bianchi, San Raffaele University and Scientific Institute  
Giuseppe Testa, European Institute of Oncology and European School of Molecular Medicine

Venue: IFOM-IEO Campus, Via Adamello 16, Milan

Program:

- 9:00 Registration
- 9:30 Opening comments by the hosts
- 9:40 **Eran Meshorer** - University of Jerusalem, Israel  
*Searching for novel chromatin regulators of pluripotency*
- 10:20 **Giuseppe Testa** - European Institute of Oncology and European School of Molecular Medicine, Italy  
*Epigenetic reprogramming in cancer and neurodevelopmental disorders: from mechanism to tool. And back*
- 11:00 Coffee break
- 11:30 **Lars Jansen** - Gulbenkian Foundation, Portugal  
*Chromatin-based epigenetic inheritance: lessons from the centromere*
- 12:10 **Marco Bianchi** - San Raffaele University and Scientific Institute, Italy  
*Title to be announced*
- 12:50 Closing words by the hosts
