

EPIGEN events

EPIGEN-MiChroNetwork Chromatin Seminar

“3D genome organization and functional regulation at distance”

May 22, 2015

Hosts: Beatrice Bodega, Massimiliano Pagani & Alessio Zippo - INGM
Venue: INGM. Padiglione R. Invernizzi ed E. Pessina – Ospedale
Maggiore Policlinico
Via Francesco Sforza 35, Milan

Program:

- 14:00 Registration
- 14:30 Opening comments by the hosts
- 14:35 **Gioacchino Natoli** – European Institute of Oncology, Italy
Transcriptional and chromatin-mediated control of inflammation
- 15:15 **Wouter de Laat** – Hubrecht Institute, The Netherlands
Exploring the functional significance of the 3D genome
- 15:55 Coffee break
- 16:30 **Chris Ponting** – University of Oxford, United Kingdom
The Dark Side of the Genome: What do lncRNAs do?
- 17:10 **Davide Gabellini** – San Raffaele Scientific Institute, Italy
F5HD muscular dystrophy provides a molecular understanding of the repetitive (epi)genome
- 17:50 Closing words by the hosts
